E-COMMERCE, RETAIL, MANUFACTURING & CUSTOM APPLICATIONS

- Real-time, data access and capture for continuous-use environments
- Design and manufacture mobile power systems
- Design and build for custom applications

PATENTED TECHNOLOGIES

POWER MANAGEMENT SYSTEMS

EcoFlex™ Power Management delivers a lighter workstation with workflow flexibility of continuous mobility with MobiusPower® or traditional corded solutions.

ASSET MANAGEMENT & LOCATION SERVICES

Rhythm® cloud-based asset management software uses BLE-based RTLS to remotely monitor and manage mobile devices with real-time visibility.
